(hereinafter - "the Company"), which is comprised of the condensed consolidated statement of financial position as of March 31, 2024 and the condensed consolidated statements of profit or loss, comprehensive income, changes in shareholder's equity and cash flows for the three months ended on that date. Our responsibility is to express a conclusion with respect to the financial information for these interim periods, based on our review.

#### Scope of review

Our review was conducted in accordance with the provisions of Review Standard (Israel) 2410 of the Institute of Certified Public Accountants in Israel concerning "Review of financial information for interim periods undertaken by the entity's auditor". A review of financial information for interim periods consists of making enquiries, in particular, of those officials responsible for financial and accounting matters, and of the application of analytical and other review procedures. A review is substantially lesser in scope than an audit conducted in accordance with auditing standards generally accepted in Israel and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the above financial information is not prepared, in all material respects, in accordance with IAS 34.

Further to the preceding paragraph, based on our review, nothing has come to our attention that causes us to believe that the above financial information is not in compliance, in all material respects, with the disclosure provisions in Chapter D of Israel Security Regulations (Periodic and Immediate Reports), 1970.

#### Emphasis of matter paragraph

Without qualifying our opinion, we draw attention to note 3 to the financial statements which describes a decision by the Commissioner of Competition to grant a conditioned exemption from recognition as a restrictive arrangement.

#### NOTE 3 - CONTINGENT LIABILITIES AND COMMITMENTS

a. Decisions of the Commissioner of Competition

#### **Exemption from restrictive arrangement**

Since 2002, the Company has operated in compliance with decisions of the Competition Authority regarding an exemption from approval of a restrictive arrangement between Bank Hapoalim Ltd, Bank Leumi Ltd, Bank Discount Ltd, the First International Bank of Israel Ltd and the Company.

The latest decision regarding the exemption from approval of a restrictive arrangement was issued on December 28, 2022 for a period of five years (hereinafter: the "**Exemption Decision**").

The exemption decision refers to several main points:

- (a) As part of the exemption decision, the Commissioner did not accept the Company's request to cancel the condition which limits the areas of activity permitted and which requires that its entry into any additional area of activity be subject to the approval of the commissioner. Also, the Commissioner expressed her position that to the extent that the banks' share in the Company's shares was lower than the current situation, so that each bank's share would not exceed 5%, this was to significantly alleviate the competitive concerns, as per the commissioner's position and to eliminate the need for this exemption.
- (b) The Company may only be engaged in the following areas of activity:
  - (1) Operation of an ATM switch;
  - (2) Operation of a charge cards switch and systems for collecting and processing transactions;
  - (3) Engagement in activity related to the protocol for a limited period, as specified in (b) below;
  - (4) Engagement in activities involving the Ashrait 96 protocol;
  - (5) Development, operation and distribution of the Ashrait PC software;
  - (6) End-to-end certification services for the EMV standard;
  - (7) Activities associated with the aforementioned fields of activity;

NOTES TO FINANCIAL STATEMENTS

#### NOTE 3 - CONTINGENT LIABILITIES AND COMMITMENTS (CONT.)

- (8) Any additional field of activity that may be approved by the Commissioner.
- (c) The terms of the services the Company is obligated to provide, including various instructions regarding the conditions for connecting to the Company's systems, as well as instructions regarding activity with manufacturers and the execution of end-to-end certifications to EMV standard.
- (d) Also, the exemption decision stipulates that the Company will publish on its website a rate for each of the services it provides within the Company's systems as defined in the definitions section, as follows: one or more of these: an ATM switch, a charge card switch and a transaction collection and processing system.

# The decision of the Competition Commissioner, after the report period, regarding the limit established in section 1 for exemption from approval for a restrictive arrangement

On April 18, 2024, the Company received the commissioner's decision to accept the Company's request and cancel section 1 of the exemption decision. The commissioner specifies in her decision that she is convinced that the existence of the condition leads to a delay in the Company's development in areas that are not necessarily relevant to the competition between the banking corporations, and creates difficulties for its operations. These difficulties may prevent the Company from offering services that benefit the public or delay the offering of these services, without any competitive justification. On the other hand, as for the concern that was the basis of the imposition of the condition as part of the exemption decision - the commissioner's position has not changed according to which the Company's entry into any new field of activity is similar to another new joint venture between the banking corporations.

Therefore, the cancellation of the aforementioned section in the conditions of the exemption does not change the essence of the competitive duties imposed on the Company, but changes the legal situation only in that the examination of the competitive effects of the Company's entry into a new field of activity will be done by the Company, in accordance with the rules of economic competition (type exemption for joint ventures) (provisional order), -2006, whereas the commissioner will examine this retrospectively, in an enforcement aspect and not from the outset. This is similar to other joint ventures between competitors.

# Approval of the Competition Commissioner for the Company to engage in the provision of aggregate Information

On April 25, 2011, it was approved for the Company to engage in providing aggregate information based on the data stored in the Company's databases according to the conditions specified in the exemption decision.

#### <u>Separation of the Company from Masav – separation outline</u>

On February 27, 2022, the Company and Masav submitted an application for approval of a restrictive arrangement under conditions with the consent of the Commissioner to the Competition Court that was approved on March 27, 2022 by the competition court.

The following are the main terms agreed upon between the parties:

- Until December 31, 2027, all joint affiliations between the applicants will be completely disconnected, so that at the end of the date for approving the restrictive arrangement, no joint affiliations will remain between them and no services will be provided from one company to another that are not as part of the services they sell to the public.
- Severing the joint affiliations will be done gradually and in a controlled manner.
- In the interim period until the complete separation of all affiliations, the applicants will cooperate in a manner that reduces the fear of reducing competition between them, and only between the officers required for a particular matter, in accordance with the conditions.
- The terms and conditions require the documentation of the meetings and joint conversations of the companies' managements, in a manner that will allow the Commissioner, if necessary, to monitor the implementation of the terms and the affiliations among the applicants.

The approval of the restrictive arrangement is valid until December 31, 2029.

In accordance with the terms of the restrictive arrangement and the separation outline approved by the Competition Court on March 27, 2022, after the report period and at the end of a mediation procedure, on April 9, 2024, the Company's shareholders' meeting approved the terms of the permanent agreement for separation between the Company and Masav.

For more details regarding the separation of the Company and Masav, see the periodic report for 2023.

NOTES TO FINANCIAL STATEMENTS

#### NOTE 4 – FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

#### a. Financial instruments

The Company's financial instruments include the following assets and liabilities: cash and cash equivalents, bank deposits, held-for-trading securities, other accounts receivable and other accounts payable. Due to their nature, the fair value of the Company's financial instruments is identical to, or approximates their carrying amounts in the financial statements.

#### b. Financial risk management

The activity of the Company exposes it to a range of financial risks: market risk (including CPI risk, exchange rate risk, price risk and interest rate risk), credit risk and liquidity risk.

As discussed above, the interim financial information does not include all information and disclosures required in annual financial statements, including regarding financial risk management of the Company, and therefore, the interim financial information should be read together with the 2023 annual financial statements and accompanying notes.

No material changes in the financial risk management policy of the Company took place relative to that reported in the 2023 annual financial statements.

#### NOTE 5 – EVENTS AFTER THE REPORTED PERIOD

- On April 16, 2024, a dividend of NIS 25,000 thousand will be distributed, the distribution of which was decided during the reporting period.
- On April 18, 2024, the Company received the commissioner's decision to accept the Company's request and cancel section 1 of the exemption decision. The commissioner specifies in her decision that she is convinced that the existence of the condition leads to a delay in the Company's development in areas that are not necessarily relevant to the competition between the banking corporations, and creates difficulties for its operations. These difficulties may prevent the Company from offering services that benefit the public or delay the offering of these services, without any competitive justification. On the other hand, as for the concern that was the basis of the imposition of the condition as part of the exemption decision the commissioner's position has not changed according to which the Company's entry into any new field of activity is similar to another new joint venture between the banking corporations.

NOTES TO FINANCIAL STATEMENTS

#### NOTE 5 – EVENTS AFTER THE REPORTED PERIOD (CONT.)

Therefore, the cancellation of the aforementioned section in the conditions of the exemption does not change the essence of the competitive duties imposed on the Company, but changes the legal situation only in that the examination of the competitive effects of the Company's entry into a new field of activity will be done by the Company, in accordance with the rules of economic competition (type exemption for joint ventures) (provisional order), -2006, whereas the commissioner will examine this retrospectively, in an enforcement aspect and not from the outset. This is similar to other joint ventures between competitors.
